Estimated Start Date:

**\* Copy of Platt Indicating Project Location is Required \***

Please provide sketch on a copy of your platt showing where on your property your project will be erected (being careful to check your easements). Should easements need to be accessed, you, the owner, will be responsible for relocating your fence, shed, etc. If the project affects adjoining neighbors, such as fencing, please provide verification that neighbors have been consulted. This is to avoid problems in the future when a neighbor also may wish to erect a fence. All fences must be built with the aesthetic side facing away from the property. Make sure to follow all *Improvement Guidelines* for fences (guidelines can be found on our website). If you're painting or installing siding, please provide color swatches.

**NOTE: You must receive prior approval from your Homeowner's Sub-Association and attach it to this request.** If you are unsure who to contact in your Sub-HOA, please reference the next page for contact info.
